

THE EXPERTS IN DRILLING.

// *The partner for professionals.*

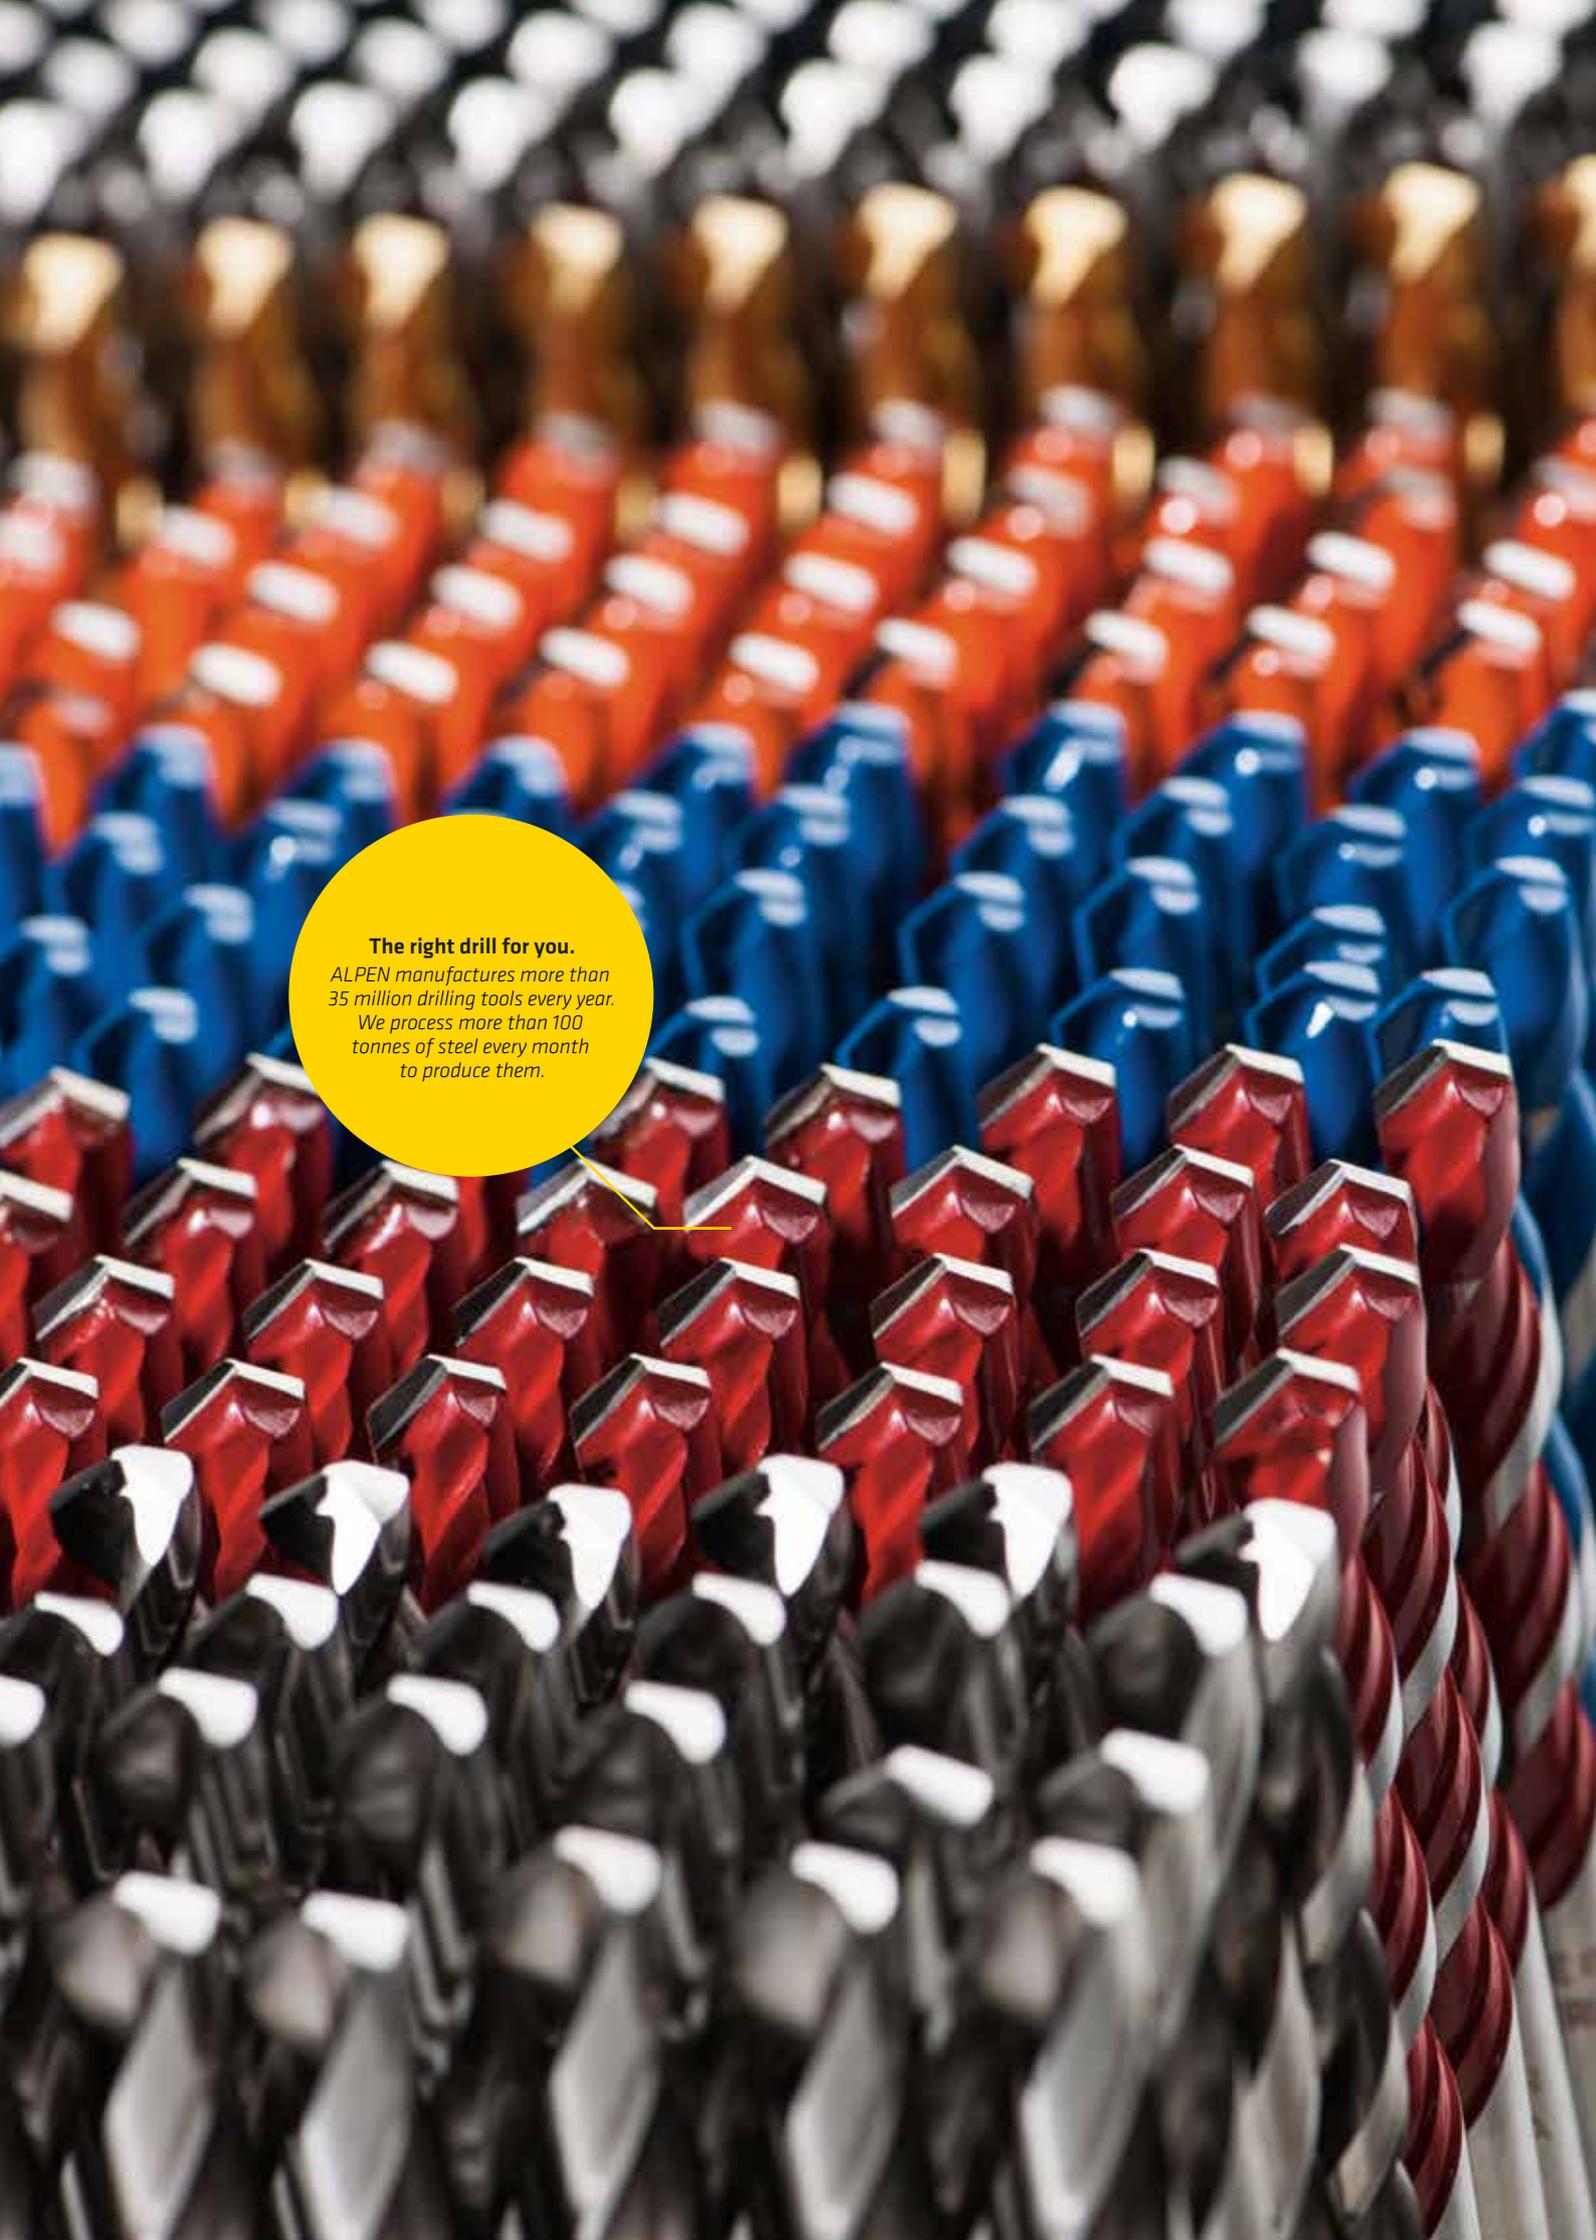

The perfect work result.

Every material has specific demands on the cutting geometry and heat treatment of each drill. Whether metal, wood, masonry, concrete, glass or ceramics: ALPEN has the right drill for every job and every demand.

The right drill:

Outstanding cutting properties coupled with excellent performance for a long service life.

The right drill for you.

*ALPEN manufactures more than
35 million drilling tools every year.
We process more than 100
tonnes of steel every month
to produce them.*

THE DRILL EXPERTS FOR PROFESSIONALS.

Whatever you need. We will provide you with the right drill bit for perfect results that are faster, more efficient and precise than ever before.

// We are Europe's only full source provider for drilling tools manufactured in-house and the leading provider of metal, masonry and wood drills. As an Austrian family enterprise we produce more than 35 million professional drilling tools at three production facilities.

All of our drills are manufactured exclusively in Austria. This ensures we control the entire production process and guarantees a consistently outstanding quality. Reliable manufacturing technology guarantees the best possible quality, bit after bit. All in all, more than 300 employees work at achieving one goal: **the tool that gives you the perfect work result.**

More than 60 years of experience in our field have made us the drill experts. Our experience, intensive research, development, outstanding performance and reliability meanwhile bear the sign of the highest possible official approval. ALPEN has been a bearer of the Austrian State Coat of Arms for extraordinary performance in the metal cutting industry since 1978.

Our product range consists of more than 4,000 items. Each individual drill was created with the aim of giving the professional user the right tool for the job in hand.

» Only full-service provider from in-house production. «

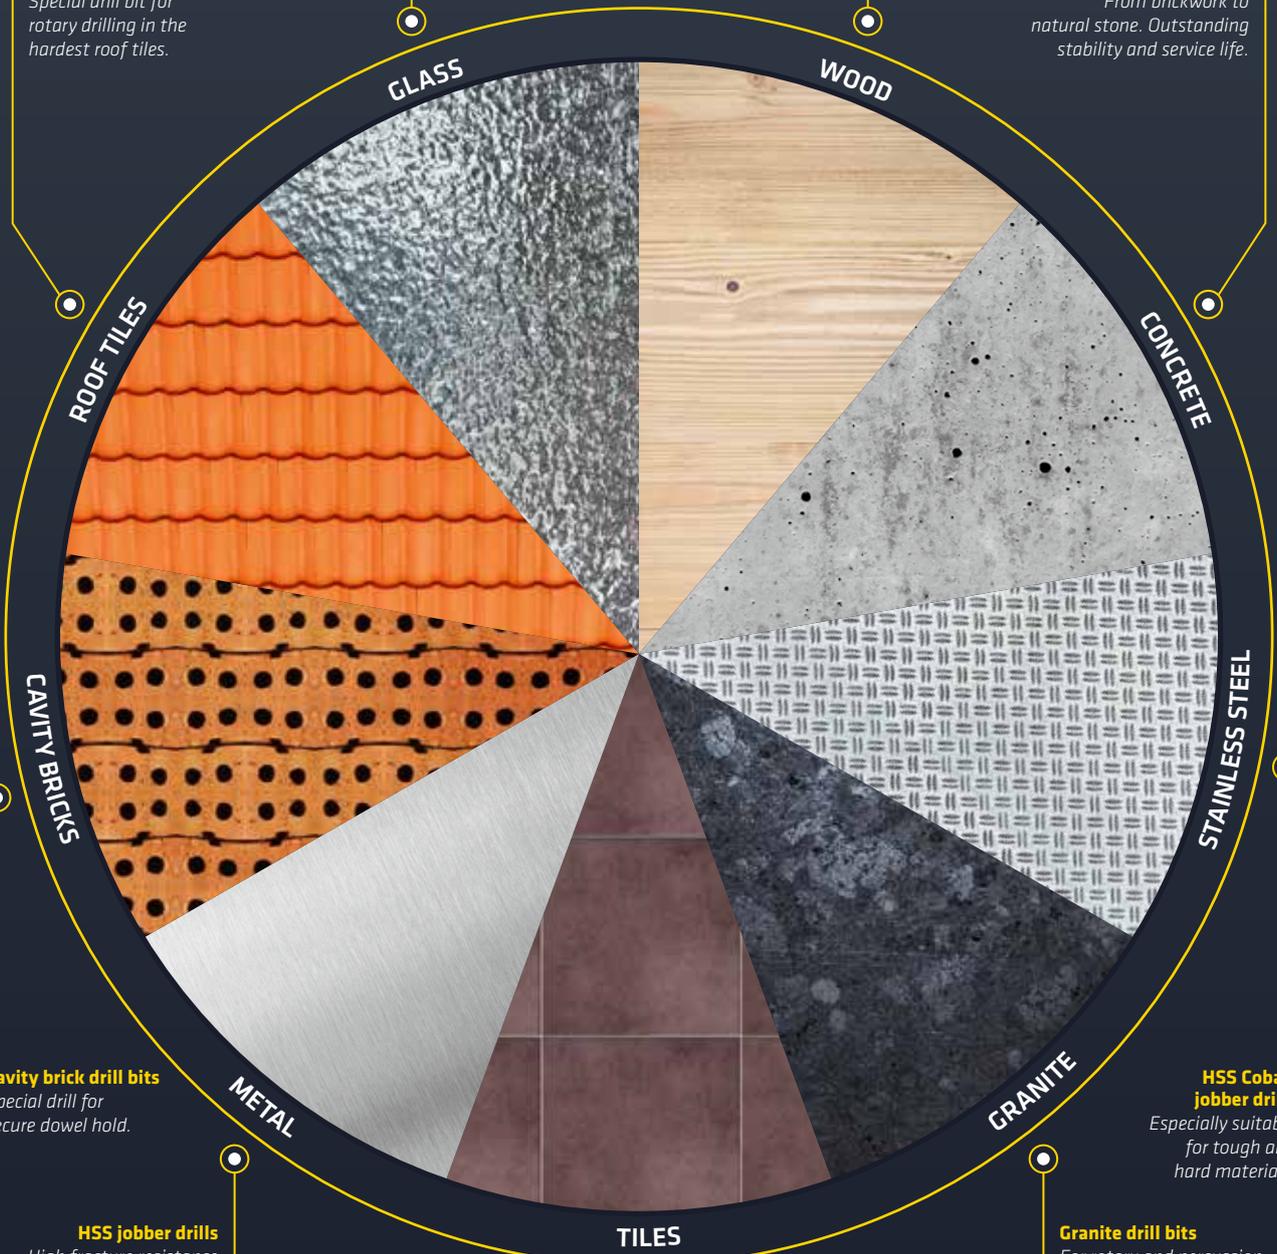

Glass drill bits
Non-slip and break-proof.

Drills for wood
Especially sharp cutting edges. Extremely powerful.

Roof tile drill bits
Special drill bit for rotary drilling in the hardest roof tiles.

Masonry and concrete drill bits
From brickwork to natural stone. Outstanding stability and service life.

Cavity brick drill bits
Special drill for secure dowel hold.

HSS Cobalt jobber drills
Especially suitable for tough and hard materials.

HSS jobber drills
High fracture resistance combined with optimum cutting performances.

Granite drill bits
For rotary and percussion drilling in the hardest granite and marble.

Porcelain / gres tile drill bit
Slip-free drilling. No breakage risk.

OUR VERSATILITY IS YOUR ADVANTAGE.

Wherever you are working. Our drill bits stand out through fast drilling times and a long service life even under the toughest conditions.

// We manufacture special and standard drill bits for a wide range of applications. Our goal is to help you to achieve the best possible result with greater speed and convenience and less cost.

We use only the highest quality steels and a special computer-controlled heat treatment process during production. We develop drill bits that meet your requirements to give you exactly the drill bit you need to solve your problems.

Regular quality inspections during the production process ensure that ALPEN drill bits stand up to even the toughest conditions. This is confirmed by numerous certificates and the fact that our complaint rate is almost 0%. Our high claim to quality is also confirmed by independent authorities.

Moreover, every production location is EN-ISO 9001 certified. Our masonry drill bits bear the PGM (Masonry Drill Bit Certification Board) seal of approval that guarantees the safety of dowel fixings. What pleases us most of all, however, is that we are a direct contact partner for every professional user.

»» *Special drill bits for
your specific area.* ««

WE THINK **IN ADVANCE** ON YOUR BEHALF.

Whatever the future may hold. We enhance your competitive edge by developing the drill bits of tomorrow today.

// The right tools for your needs. We improve our tools continuously to achieve this objective. Our research and development department is hard at work every day to make our tools even more accurate and long-lasting.

In our product range you will find not only standard drill bits but also a broad selection of innovative problem-solvers for special tasks and purposes. Every year we develop and patent new and innovative drill bit geometries to help you work more efficiently.

Keramo-extreme
(Porcelain / gres tile drill bit)
The perfect solution for the toughest tiles. No cooling required.

Profi Multicut
(multi-purpose drill bit)
The all-rounder in various lengths and shank designs (cylindrical, hexagonal, and SDS-plus shank).

Forte Cobalt
(HSS Cobalt jobber drill)
The deep-hole drill for high-strength steels. Extremely fast drilling progress thanks to a unique cutting geometry.

**HSS extra long series
DIN 1869**
(extra-long)
Exact deep-hole drilling.

Welcome to the drill lab.

ALPEN has a proprietary drill bit competence center where drill bits and innovations are tested under real working conditions.

From Austria around the world!

We store our drill bits on 5.6 kilometers of shelving with more than 600 pallet bins and ship about 130,000 tools around the world every day.

SERVICE YOU CAN RELY ON.

It makes no difference when and where. We are always there for you and dedicate all our efforts to handling your requests.

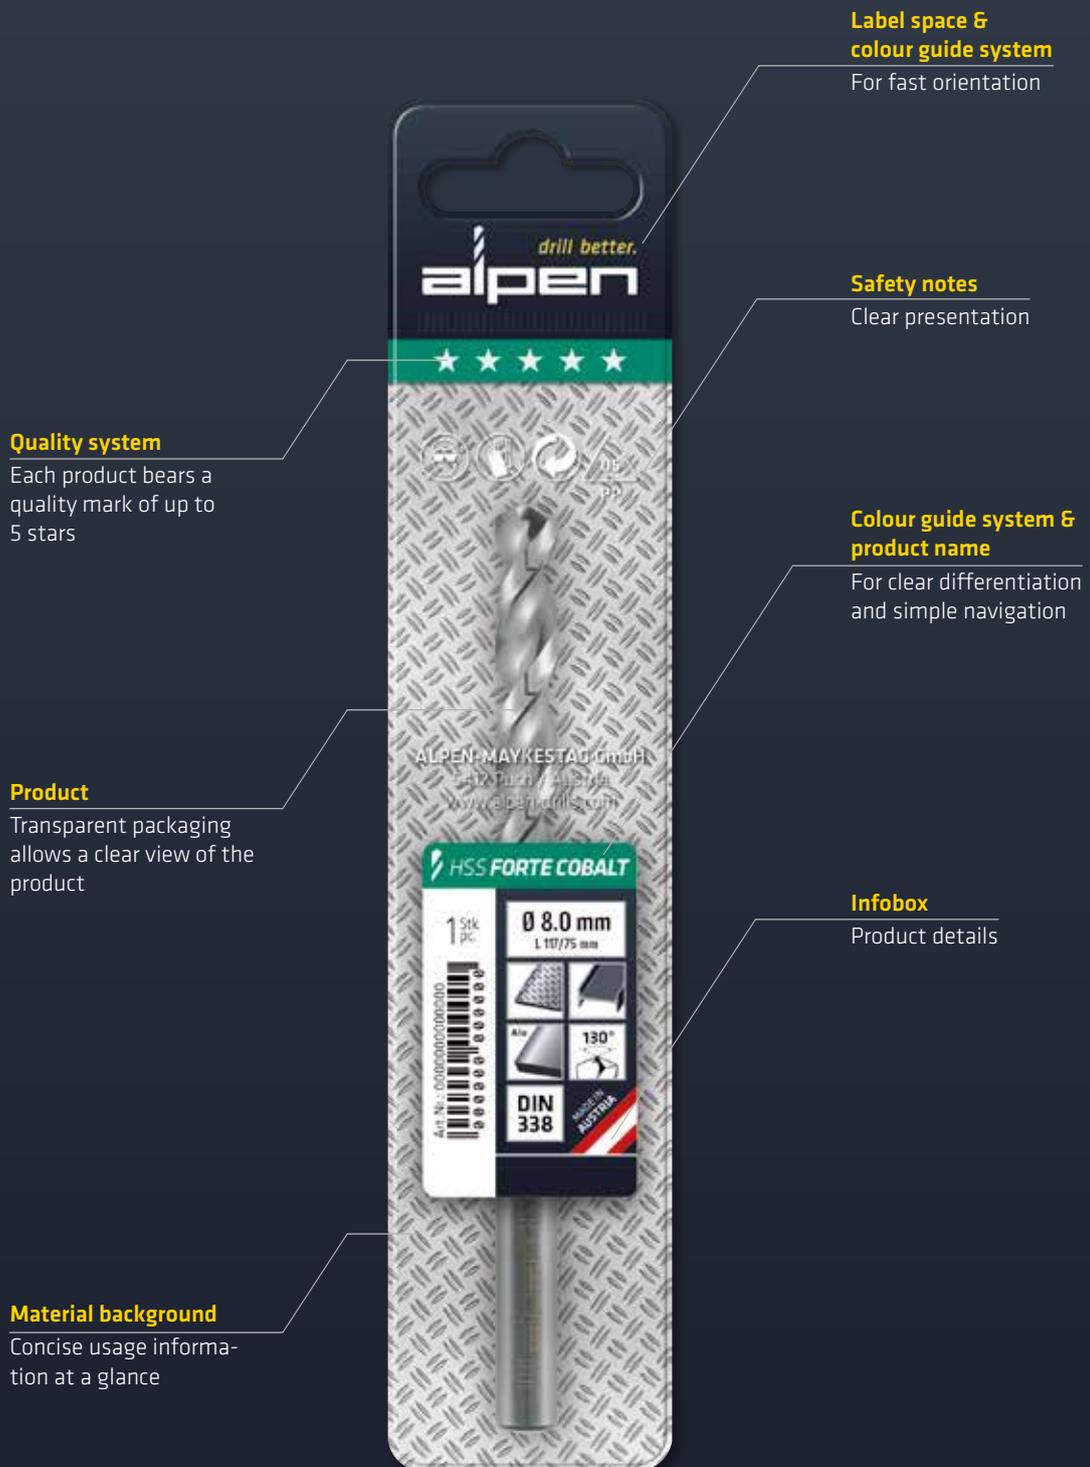

// From your point of view, just in time means you receive your tools exactly when you need them. From our point of view, providing the best possible service means we excel at giving you the advice you need in your language. Fast, competent and friendly.

Our logistics processes guarantee immediate tool delivery to ensure the highest possible availability.

More than 4,000 of our ALPEN products are therefore always available from stock and are shipped daily to more than 70 countries around the world.

We can also implement various IT connections to your ERP system to make product order placement even easier and faster.
